

# Road Freight Trade Lane CH-FR

## Our Service

- Whether groupage, LTL or FTL, Agility combines straightforward, standardized road freight products with customizable options to meet lead-time and capacity needs.
- Our RF service links Switzerland & France via our hub system in both countries from a door to door perspective.
- Powered by our carefully selected and certified preferred haulier, Agility's Road Freight products provides you with the right solutions for your transportation needs.
- With our Agility Connects platform, you have end-to-end visibility into your supply chain, giving you more transparency and control over your shipments.
- Dedicated Trade Lane Experts will support you in selecting the most appropriate solution for your industry requirements including customs clearance support, transport insurance & reverse logistics.
